## TRAINERS

### DOES YOUR WORKPLACE HAVE THE NECESSARY INJURY INSURANCE PROTECTION?

Following news that several local trainers sustained serious injury recently whilst carrying on their training activities, it is perhaps timely to remind trainers of their legal obligations, and the various other insurance options that are available, to protect their workers, family members who work in their business and of course, the Trainers themselves.

#### Worker's Compensation - your Legal Responsibility

It is a prescribed responsibility i.e.: embodied in legislation, in the Northern Territory that every business that employs or hires Workers on a full-time, part-time or casual basis, under an oral or written contract of service or apprenticeship, must effect worker's compensation insurance with a local, licensed insurer.

#### Definition of a Worker

For the purposes of this insurance, a Worker is:

- a natural person who performs work or a service of any kind for another person under a contract, receives remuneration and is, in relation to the contract, an employee for the purpose of assessment for PAYG withholding under the 'Taxation Administration Act 1953 (Cth)', Schedule 1, Parts 2-5, even if the employer is not withholding tax when they should be. Workers who typically fall into this category for a Trainer include stable hands, foremen & track riders.
- this definition does not extend to individuals who provide a service using their own tools of trade, and rectify any defects at their own expense. Veterinarians and farriers are common examples of independent contractors who fall into this category

An on-line tool is available on the ATO website to assist Trainers to determine if their Worker/s fit within the definition. If the business engages and pays Workers, it is recommended you visit [www.ato.gov.au/Calculators-and-tools/Employee-or-contractor/](http://www.ato.gov.au/Calculators-and-tools/Employee-or-contractor/)

#### Certain Workers Covered Under Specific Circumstances

- Trainers can qualify for inclusion under a worker's compensation policy in limited circumstances only. If the **Trainer is a director of a registered training business**, he or she can be covered if the company has taken out a worker's compensation policy, and both personal details and the remuneration of the Trainer have been disclosed to the insurer.
- If the training business is owned by an individual, or is a partnership (therefore, is not a registered company), family members who live with the owner/s of the training business and who are paid to assist with training activities, can also be covered if both their personal details & remuneration have been disclosed to the insurer.

#### Racing & Betting Act 1983 (as amended)

This Act requires TRNT to effect worker's compensation insurance for **licensed jockeys, track work riders, stable hands and foremen**, whilst any of these individuals are:

- actively engaged in thoroughbred racing and training activities; and
- are doing so on any licensed premises and/or within the associated environs e.g.: environs includes float and car parks attaching to the premises, roadways connecting to stables, the dry riverbed of the Todd River which sits adjacent the Pioneer Park training centre, etc.

In effect, the Act compels TRNT to treat these individuals as their very own "deemed" workers whilst they are working on a licensed premises. Of note, is the Act **does not** extend this "deeming" provision to include licensed Trainers – hence, TRNT cannot expand their policy to cover Trainers, as the legislation does not allow them to do so at this time.

#### Given the above, Trainers should consider the following:

**Firstly**, all Trainers have a legal obligation to effect worker's compensation insurance to cover Workers they engage and pay a wage, for activities related to their training business. There will be instances where the TRNT insurance will be the 'host policy' for a Trainer's injured worker. Equally, there will be instances where a **workplace injury will not occur at a licensed premises or within the associated environs**, and therefore, the TRNT insurance will not apply. For example, injury whilst unloading a horse at an agistment property, during a rehoming exercise, or whilst at a veterinary clinic. Similarly, whilst riding the horse for training purposes in bushland or trails, or during beach work anywhere in Darwin. To cover this worker related risk, all Trainers **MUST** effect their own worker's compensation insurance. If Trainers do not already have a policy, please contact NT Worksafe on 1800 250 713 for assistance.

**Secondly**, if Trainers cannot access personal protection under a worker's compensation policy (refer to **Certain Workers Covered Under Specific Circumstances**), they should examine alternative insurance options. As shown recently, accidents do occur, and the costs of medical care and any associated downtime can be a considerable burden for a Trainer to absorb. Accordingly, Trainers are encouraged to explore Personal Accident & Illness, Trauma and Life insurance, all insurances commonly held by many self-employed individuals across the racing industry, and indeed, in many other vocations outside of racing.

**For more information on this subject, please contact the Australian Trainer's Association (03 9372 1688), or visit [www.austrainers.com.au](http://www.austrainers.com.au) to read about the various insurance options under the members information area.**

# Trainer & Owner Reforms (TOR)

The introduction of the Trainer & Owner Reforms (TOR) has been one of the most significant inclusions to the Australian Rules of Racing in the last decade.

These reforms standardised many aspects of the commercial relationship between Trainer and Owner (as well as between multiple owners of a horse), and provided a pathway to resolve disputes including, most importantly for Trainers, those relating to the non-payment of training fees.

An overview of some of the key elements of the TOR follows:

## The Rules of Racing

- The TOR has national application. It was written into the Rules of Racing in 2017, and embraced by each state and territory racing jurisdiction across Australia.

There are 9 specific TOR Rules as follows;

TOR Rule 1 Commencement and operation of the TOR

TOR Rule 2 Powers of PRAs in relation to the TOR

TOR Rule 3 Requirement for trainers to issue a Fees Notice

TOR Rule 4 Circumstances in which the presumption of a training debt arises

TOR Rule 5 Requirements in relation to, and the effect of, a Dispute Notice

TOR Rule 6 Consequences if the presumption of a training debt arises

TOR Rule 7 Further trainer rights (when the presumption of a training debt has not arisen)

TOR Rule 8 Training Disputes Tribunal

TOR Rule 9 Facilitating payment after a TDT decision

## Key Documents

### • Standard Training Agreement (STA)

The STA governs the relationship between Trainer and Owner, with both bound by same unless they have a separate written arrangement. Under the rules the STA is applicable to all trainers and owners, with limited exceptions only\*.

\* only Owner/Trainers who train a horse themselves, or an Owner who employs a Trainer exclusively for them under a written agreement, are exempt.

### • Fees Notice

A Trainer MUST produce and provide a Fees Notice to the Managing Owner (on behalf of all Owners), within 7 days of appointment. This should set out charges for recurrent services e.g.: daily training fee, race plates, standard veterinary consultation, float charges; etc. It is a guide for Owners, designed to inform them of the range of costs they will incur for many of the common activities and services their thoroughbred will receive under the Trainer's care.

### • Co-Owners Agreement

A Co-Owners Agreement, or COA, was introduced as part of the reforms. This agreement sets out obligations and responsibilities of Owners to each other. It also sets out the overarching obligations of the Managing Owner, firstly between his or her co-owner group, and secondly, with the Trainer, with regard to communications and representing the interests of the Ownership group.

## Disputes Resolution Process

- A standardised process was introduced for dealing with Trainer and Owner disputes for non payment of training and inter-related fees:

- o A Trainer can lodge an Enforcement Action Application to assist with debt collection

- o An Owner can lodge a Dispute Notice if they dispute part or all of the Trainer's invoice

Disputes documentation must be lodged with Racing Australia, who in turn, will communicate with the parties to the dispute and make them aware that the matter is now on the record. Racing Australia will also refer the matter to the relevant racing authority (for example, in the Northern Territory, this is TRNT), who will take over conduct of the matter.

The process offers mediation for the simple matters, or for those matters that cannot be settled by mediation ie; formal disputes, these will be referred to a Training Disputes Tribunal for determination.

The TOR has been a wonderful addition to the Rules of Racing. It has introduced much needed process and standardisation into an area that had historically been littered with uncertainty, a lack of transparency and indeed for many, resulted in financial distress.

The Australian Trainers' Association is constantly working to improve the TOR for the benefit of its Trainers. As has been the case for many of our rules of racing over the years, they evolve over time, generally from our collective experiences with "live disputes". To that end, we are currently working with Racing Australia, and they in turn with the national PRA network, to tighten several elements of the TOR debt recovery process, to better position trainers in the pursuit of their financial entitlements.

For more information on this subject, please visit the Racing Australia website [www.racingaustralia.horse](http://www.racingaustralia.horse), and click on the 'Trainer and Owners Reforms' handle in the RA banner, located at the top of their Home page.

Members of the ATA can also visit our web-site [www.austrainers.com.au](http://www.austrainers.com.au), and access the dedicated 'Trainer & Owner Reforms' section by clicking on the handle that sits within the Home page banner, to read relevant reference information, plus download our ATA Advanced Training agreement and a template Fees Notice.

# Taminmin Cert I & II Racing

Taminmin College Cert I & II in Racing were unfortunately grounded this year due to Covid and were not able to work in the racing stables as much or go on their normal end of year excursion to South Australia. Congratulations to Trudie Clarke from Taminmin College for organising an alternative for the students to learn another very important role in the racing industry which is retraining horses into life after racing. Under the expert guidance of Tim George they have now had the experience of working with Off The Track horses to improve their skills in not only riding but working with these amazing thoroughbreds on the ground, a very important part of transitioning from racing. Well done to the students, you should be all proud of what you have achieved. TRNT Off The Track will again support this program for this year and see this as a great opportunity for both the students and our retired off the track horses. TRNT Off The Track thanks Hygain for ensuring our horses had a well balanced diet during their time at the Taminmin College. For more information on the TRNT Off The Track programs check us out on facebook or contact Kat on 0419928530

# VETERINARY NOTICES

## ELECTIVE TESTING OF NON RACEDAY SAMPLES

Trainers are advised that they are now able to have non-raceday samples screened by the Australian Raceday Forensic Laboratory on request for certain long-acting therapeutic substances.

This service has been introduced to assist trainers to determine the suitability for racing of horses under their care that have been treated with these long acting medications.

The special non-raceday drug screens are confined to corticosteroids, anabolic steroids or procaine (arising from the administration of procaine penicillin). To use this service, trainers must first gain approval from the Stewards, who will then supply the appropriate collection kits, seals and documentation.

Samples must be collected in accordance with the Australian Racing Forensic Laboratory collection procedures and must be accompanied by a Testing of Special Non-Raceday Samples application.

Samples will not be tested unless they are packaged and sealed properly and accompanied by the appropriate documentation.

Trainers are warned that the results of any non-raceday testing do not absolve them of their responsibilities in the event of a positive result arising from samples taken at any registered race meeting. Further details in relation to lodging of samples can be obtained from Stewards at Darwin Turf Club or Alice Springs Turf Club.

## RACEDAY SWABBING PROCEDURES

Trainers are reminded that it is their responsibility to ensure that they and/or any person who represents them during the swabbing of their horses, are fully aware of the raceday swabbing procedure and that they observe all stages of that procedure.

The Club's veterinary surgeon and/or swabbing attendant will ensure that persons who are unfamiliar with the procedure have it explained to them and also inform them that as the trainer's representative, they should observe all stages of the swabbing procedure.

Trainers are reminded that the onus is on the trainer or his/her representative to observe the procedure.

**AR 69 Scratching of horses for Group or Listed races****Summary:**

The purpose of the rule is that if a horse has been nominated for a Group, Listed, or Restricted Listed race, and that race is within 30 days' time, then if the horse is to be scratched, it must be done immediately. This is because betting activity increases significantly the closer you get to the race and punters need to be assured that a horse will only be scratched if something happens in the future.

As currently drafted, the rule could be interpreted to only catch horses that are scheduled to race within 30 days of the nomination. This would mean that if a horse is nominated in August for a race in November, then the rule does not apply, i.e. because the nomination is not within 30 days of the race.

Racing Australia has amended the rule to clarify the wording and achieve its intended purpose.

**Amend AR 69 as follows:**

AR 69 Scratching of horses for Group or Listed races

If a person:

- (a) nominates a horse for a Group Race, a Listed Race or a Restricted Listed Race; and
- (b) decides within 30 days of that race that the horse will not start in the race,

the person must immediately scratch the horse from that race.

**AR 104 Trainers must keep treatment records****Summary:**

Treatment records often represent an important part of the evidence considered by Stewards in relation to prohibited substance and administration on race day matters. It is important the requirements of the rule with respect to keeping treatment records are clear and it provides for the recording of all information which may be relevant to a matter before the Stewards.

As a record of all treatments administered to a horse must be recorded in the trainer's treatment records, it is considered that the requirement to enter the reason for which a treatment was administered may, in addition to clarifying matters before the Stewards or during stable inspections, have the effect of prompting trainers to review the necessity of some treatments or medications. Accordingly, Racing Australia has added subrule (2)(h).

Subrule (2)(d) has also been amended to replace "paste" with "orally" for consistency in terminology, as paste describes a substance rather than a route of administration.

**Amend AR 104 as follows:**

AR 104 Trainers must keep treatment records

(2) For the purpose of subrule (1), each record of administration must include the following information:

- (a) the name of the horse;
- (b) the date and time of administration of the treatment or medication;
- (c) the name of the treatment or medication administered (brand name or active constituent);
- (d) the route of administration including by injection, stomach tube, orally, topical application or inhalation;
- (e) the amount of medication given (if applicable);
- (f) the duration of treatment (if applicable);
- (g) the name and signature of the person/s administering and/or authorising the administration of the treatment or medication;
- (h) the reason for administering the treatment or medication.

**AR 106 Saddling a horse****Summary:**

The Chairmen of Stewards Committee has noted a number of instances of horses not carrying the correct saddlecloth numbers at official trials. Accordingly, Racing Australia has amended AR 106, which includes the correct saddlecloth number as part of proper saddling at races and official trials. (Note that AR 207 does not include trials and relates to the raceday process rather than the proper saddling of horses.)

**Amend AR 106 as follows:**

AR 106 Saddling a horse

- (1) The trainer of a horse is at all times responsible for the proper saddling and application and fitting of all gear to a horse (including the correct saddlecloth number) presented for a race, official trial, jump-out or trackwork.

**AR 113 Electronic devices not permitted while riding****Summary:**

The Chairmen of Stewards Committee has noted an increasing and concerning trend of riders holding mobile phones whilst mounted on a horse. Under the current rule, it is only an offence to use a mobile phone (or other electronic device) whilst mounted.

To improve the safety of riders and other participants, Racing Australia has amended the rule to also make it an offence to hold a mobile phone (or other electronic device) whilst mounted.

**Amend AR 113 as follows:**

AR 113 Electronic devices not permitted while riding

Unless permitted by the Stewards, when mounted on a horse a rider must not hold or use any mobile phone, radio or other electronic appliance, apparatus, instrument or equipment capable of receiving, transmitting or playing information.

**AR 122 Helmets & AR 123 Safety vests****Summary:**

Under the Rules, when riding in darkness a rider must affix a safety warning light to their helmet (AR 122(5)).

In the Northern Territory, TRNT has trialled a new initiative where licensed persons riding trackwork during darkness wear a high visibility harness/braces with front and rear built in flashing lights over the top of their approved safety vest. This was done in response to situations where the current standard was not as effective as intended in some cases. For example, in the event a rider is dislodged and the helmet is subject to severe impact, the lights could come off or stop working.

Following consideration of TRNT's trial, as well as feedback from industry stakeholders, Racing Australia has approved changes to AR 122 and AR 123 such that when riding in darkness riders may now wear either:

- a helmet with a safety light affixed to it (as per the current rule); or
- a harness/braces with safety lights over the top of a safety vest.

Note: Under the Rules, trackwork may only be conducted where the Stewards have ruled that sufficient natural or artificial lighting exists.

**Amend AR 122 as follows:**

AR 122 Helmets

(6) Subject to subrule (7), when mounted on a horse during darkness, every rider must affix to his or her helmet a safety warning light of a type approved by Racing Australia, a PRA or the Stewards.

(7) Subrule (6) does not:

- (a) apply to any rider who complies with AR 123(4);
- (b) apply to any location where the Stewards have ruled that sufficient artificial lighting exists;
- (c) affect the requirement that trackwork may only be conducted where Stewards have ruled that sufficient natural or artificial lighting exists.
- (8) If an apprentice jockey breaches subrule (1), the apprentice jockey's master and/or any other person who was in charge of the apprentice jockey at any relevant time may also be penalised unless that person satisfies the Stewards that he or she took all proper care to ensure that the apprentice jockey complied with that subrule.

**Amend AR 123 as follows:**

AR 123 Safety vests

(4) Subject to subrule (5), when mounted on a horse during darkness, a rider must wear:

- (a) a safety vest that complies with the requirements in subrule (1); and
  - (b) over that safety vest, or over clothing worn over that safety vest, a harness or braces that contains safety warning lights of a type approved by Racing Australia, a PRA or the Stewards.
- (5) Subrule (4) does not:
- (a) apply to any rider who complies with AR 122(6);
  - (b) apply to any location where the Stewards have ruled that sufficient artificial lighting exists;
  - (c) affect the requirement that trackwork may only be conducted where Stewards have ruled that sufficient natural or artificial lighting exists.
  - (6) If an apprentice jockey breaches subrule (1), the apprentice jockey's master and/or any other person who was in charge of the apprentice jockey at any relevant time may also be penalised unless that person satisfies the Stewards that he or she took all proper care to ensure that the apprentice jockey complied with that subrule.

**AR 241 Prohibited substance in sample taken from horse at trial etc****Summary:**

Under the current rule, detection of substances on Prohibited List A or B in horses participating in official trials, jump-outs and other tests only constitutes a prohibited substance offence where the event is "for the purpose of the horse obtaining a permit to start in a race (whether after suspension or otherwise)".

In circumstances where official trials and their results are increasingly relied on by industry participants (including punters), Racing Australia is of the view that, to improve the integrity of official trials, substances on Prohibited List A and B should not be permitted at such events regardless of the purpose a horse is participating. AR 241 has been amended accordingly.

The amendment does not change the current rule with respect to horses participating in jump-outs or other tests (subrules (b) and (c)).

**Amend AR 241 as follows:**

AR 241 Prohibited substance in sample taken from horse at trial etc

If a horse is brought to a racecourse or recognised training track to participate in:

- (a) an official trial;
  - (b) a jump-out for the purpose of obtaining a permit to start in a race (whether after suspension or otherwise); or
  - (c) any other test for the purpose of obtaining a permit to start in a race (whether after suspension or otherwise),
- and a prohibited substance on Prohibited List A and/or Prohibited List B is detected in a sample taken from the horse prior to or following the relevant event, the trainer and any other person who was in charge of the horse at any relevant time breaches these Australian Rules.

**AR 267 Prohibitions on conduct of trainers during suspension****Summary:**

Racing Australia is of the view the current rule restricting the actions of trainers while suspended should be clarified to ensure that such trainers do not continue to have influence over training operations while suspended. This has the potential to affect both the integrity and the public perception of racing.

Accordingly, Racing Australia has amended AR 267 by clarifying the specific restrictions on suspended trainers and making the opening paragraph consistent with AR 270A (penalty for breach of terms of suspension).

**Amend AR 267 as follows:**

AR 267 Prohibitions on conduct of trainers during suspension

Unless otherwise authorised by the PRA or the Stewards in whose territory a suspension was imposed on a trainer (and upon such conditions as the PRA or the Stewards may in their discretion impose), a suspended trainer must not, during the period of that suspension:

- (a) as a trainer or permit holder, nominate a horse for a race, official trial or jump-out;
- (b) train, or participate in any way in the training or preparation for racing of, a horse (including without limitation the giving of instructions);
- (c) be registered as a stablehand;
- (d) be employed by, or otherwise engaged to provide any service in any capacity to, any thoroughbred racing stable; or
- (e) enter the mounting yard, scales area or horse stall area at a racecourse, save that a suspended trainer may enter such an area if he or she is the owner of a horse in that area.

**Prohibited List B thresholds – Theobromine****Summary:**

The International Federation of Horseracing Authorities has amended the status of the prohibited substance theobromine from a threshold level to an International Residue Limit (IRL) within Article 6 of the International Agreement on Breeding Racing and Wagering. The current IRLs for theobromine are 2ug/mL in urine and 0.3ug/mL in plasma.

In the interests of international harmonisation, Racing Australia has amended the rules to remove theobromine from the list of substances that have a threshold applied (Schedule 1, Part 2, Division 3 – Prohibited List B thresholds).

Racing Australia's Veterinary and Analytical Advisory Group has previously agreed to a national uniform approach to dealing with the detection of low levels of prohibited substances known to be environmental substances or feed contaminants, whereby IRLs are not formally adopted into the Australia Rules of Racing. It has previously been agreed that Australian racing laboratories would maintain their currently agreed local reporting levels for substances of environmental concern, and Australian and New Zealand Official Racing Analysts (ANZORA) would manage a collaborative approach between the laboratories to ensure these reporting limits were applicable to each laboratory.

Accordingly, theobromine has been removed from Division 3 – Prohibited List B thresholds and the Australian racing laboratories have been advised that theobromine at 2ug/mL in urine and 0.3ug/mL in plasma is to be included in the currently agreed list of local reporting levels for substances of environmental concern.

**Amend Schedule 1, Part 2, Division 3 as follows:**

PART 2 – SUBSTANCES PROHIBITED ON RACE DAYS, CERTAIN TRIALS  
ETC

Division 3 – Prohibited List B thresholds

The prohibited substances set out below in this Division 3 when present at or below their respective threshold are exempt from Prohibited List B.

10. Not used.

**AR 2 Dictionary (definition of “qualified veterinary surgeon”)**

The term “qualified veterinary surgeon” is currently used in AR 34(3) (regarding horse registration) and AR 225 (regarding euthanasia).

From 1 January 2020 the term will also be used in new/amended rules which provide that:

- only a qualified veterinary surgeon can perform shockwave therapy on a horse –AR 86(4);
- only a qualified veterinary surgeon can perform endoscopy of the respiratory tract on a horse – AR 231(6); and
- a defence to blood doping offences exists where certain therapy is provided by a qualified veterinary surgeon – AR 257A.

The term is being defined in the Rules to provide clarity as to what constitutes a qualified veterinary surgeon.

In addition to having the relevant qualifications, the definition includes an additional requirement that the veterinarian be approved by the relevant PRA if required, given such a requirement applies under the Racing NSW Local Rules.

**Amend AR 2 as follows:****AR 2 Dictionary**

In the interpretation of these Australian Rules (and any race meeting held under them), unless the context requires otherwise, the words and phrases below have the meanings set out in this rule.

*“qualified veterinary surgeon means a veterinarian who is:*

- (a) registered with the Veterinary Practitioners Board (or equivalent regulatory body) in a State or Territory of Australia; and
- (b) approved by the relevant PRA (including by way of permit, approval or licence) if required by a Local Rule of that PRA.”

Date of effect: 1 January 2020

**AR 86 Shockwave therapy**

The Racing Australia Veterinary and Analysts Committee (VAC) advises:

- there is increasing evidence of the use of shockwave therapy by lay people and that this treatment is not being reported as required under the Rules of Racing; and
- there are increased risks of tissue injury in horses that are subject to shockwave therapy performed by untrained lay people.

Accordingly, VAC has recommended that the Rules are amended to restrict the performance of shockwave therapy to qualified veterinarians only.

This position is supported by the Racing Australia Chairmen of Stewards Committee.

Further, VAC has noted that Equine Veterinarians Australia does not support shockwave therapy performed by lay people.

Racing Australia has approved the addition of new subrule (4).

Amend AR 86 as follows:

“AR 86 Horses that have had shockwave therapy

(4) A person must not perform shockwave therapy on a horse unless he or she is a qualified veterinary surgeon.”

Date of effect: 1 January 2020

**AR 87 Intra-articular injections**

The Racing Australia Veterinary and Analysts Committee (VAC) notes there is significant anecdotal evidence of the increasing use of anti-inflammatory and pain relieving medications – as an alternative to corticosteroids – being given by intra-articular (IA) injection, such as the opioid morphine or the non-steroidal anti-inflammatory drug (NSAID) ketorolac (Toradol), and IA desensitising substances such as ammonium sulphate (Nuromene) and polyacrylamide hydrogel which may have a neurotoxic mechanism of action.

VAC has expressed concern that the use of IA opioids and NSAIDs close to racing would promote significant analgesia (pain numbing effect) and compromise the welfare of the horse, and the safety of the rider, in at least the same way as a corticosteroid IA injection close to racing would. Substances such as P-block which have come to attention at recent inquiries are unregistered injections and as such should not be held by trainers under AR 252.

Accordingly, VAC has recommended that AR 87 be expanded to prohibit the IA administration of any substance at any time during the 8 clear days prior to a race, official trial or jump-out. The Racing Australia Chairmen of Stewards Committee supports VAC’s recommendation.

Racing Australia has approved the amendments to AR 87 as set out below.

**Amend AR 87 as follows:****“AR 87 Horses that have had an intra-articular injection**

- (1) If a horse has been subjected to an intra-articular injection:
  - (a) the horse is ineligible for; and
  - (b) a trainer must not enter or start the horse in, any race, official trial, or jump-out for 8 clear days following midnight on the day of the administration.
- (2) If a horse has been subjected to, or the Stewards reasonably suspect a horse has been subjected to, an intra-articular injection at any time during the 8 clear days prior to the day of a race, official trial, or jump-out, the Stewards may order the scratching of the horse from the relevant event.
- (3) If a horse has been nominated and/or entered for a race, official trial, or jump-out, a person must not:
  - (a) administer;
  - (b) cause to be administered;
  - (c) attempt to administer; or
  - (d) be party to the administration of, an intra-articular injection to the horse at any time within 8 clear days of the race, official trial, or jump-out.

Date of effect: 1 January 2020

**AR 143 Apprentices’ winning rides book**

Racing Australia is amending AR 143 to accord with the current practice of apprentice jockeys being required to provide their winning rides book to a Steward before weighing-out in a race.

**Amend AR 143 as follows:****AR 143 Weight allowances for apprentice jockeys**

- “(12)(a) A winning rides book must be issued to every apprentice jockey by a PRA.
- (b) It is the responsibility of the apprentice jockey and the apprentice jockey’s master to ensure that the apprentice jockey brings the winning rides book to each race meeting the apprentice jockey participates at and that winning rides are entered in that winning rides book and endorsed by a Steward before the apprentice jockey leaves the racecourse.
- (c) An apprentice jockey must provide his or her winning rides book to a Steward before weighing-out in any race.”

Date of effect: 1 January 2020

**AR 231 Endoscopy of the respiratory tract**

Racing Australia is amending AR 143 to accord with the current The Racing Australia Veterinary and Analysts Committee (VAC) advises there is increasing evidence of training establishments performing endoscopy of the respiratory tract without any veterinary involvement. Endoscopy is an invasive procedure with risks to horses and human handlers.

The act of introducing an endoscope into the respiratory tract is not itself considered an act of veterinary science within the relevant legislation where it is performed by a lay person on a horse in their care and without a fee for service being charged. However lay persons performing this procedure are by virtue of the action then accordingly making a diagnosis – which is considered an act of veterinary science – and, further, instigating some form of drug therapy as a result of that lay diagnosis (often without any veterinary consultation).

Accordingly, VAC is of the view that endoscopy of the respiratory tract on a horse should only be performed by a qualified veterinarian. The Racing Australia Chairmen of Stewards Committee supports this position.

Racing Australia has approved the addition of new subrule (6).

**Amend AR 231 as follows:****AR 231 Care and welfare of horses**

“(6) A person must not perform endoscopy of the respiratory tract on a horse unless he or she is a qualified veterinary surgeon.”

Date of effect: 1 January 2020

## AR 257A Blood doping

The Racing Australia Veterinary and Analysts Committee (VAC) has recommended that a new rule is introduced to mitigate the manipulation of normal blood parameters by infusing stored blood or blood products (commonly referred to as 'blood doping' in human sports).

This is because blood doping may be used to illegally increase the oxygen-carrying capacity of the blood. Accordingly, it represents a threat to both equine welfare and racing integrity.

The Racing Australia Chairmen of Stewards Committee is of the view that a prohibition on blood doping should be introduced into the Rules of Racing in accordance with VAC's recommendation. Racing Australia has approved the addition of a new rule as set out below. Note the rule contains a defence in subrule (3) to any charge where blood doping was conducted for life-saving purposes and/or as part of certain veterinary regenerative treatment.

### Insert new AR 257A as follows:

#### 'AR 257A Prohibition on blood doping

(1) A person must not:

- (a) withdraw and re-infuse; or
- (b) withdraw, manipulate and re-infuse, homologous, heterologous, or autologous blood, blood products or blood cells into the circulatory system of a horse.

(2) A person must not administer any quantity of homologous, heterologous, or autologous blood, blood products or blood cells of any origin into the circulatory system of a horse.

(3) Notwithstanding subrules (1) and (2), a PRA or the Stewards may find that it is a complete defence to a charge laid under subrule (1) or (2) if in their opinion:

- (a) the relevant conduct was for life-saving purposes; and/or
- (b) the relevant conduct was part of a veterinary regenerative therapy for the treatment of musculoskeletal injury or disease administered by or under the supervision of a qualified veterinary surgeon."

Date of effect: 1 January 2020

## AR 270A Breach of suspension restrictions

When licensed or registered persons are suspended, they are subject to certain express restrictions under the Rules of Racing and may also be subject to other conditions imposed by the relevant PRA or Stewards.

In contrast to the rules regarding disqualifications (AR 263(4)) – which expressly provide that a breach of any restriction while disqualified results in an automatic recommencement of the disqualification and possible further penalty (subject to PRA discretion) – the rules regarding suspensions do not specify the consequence of a breach of any restriction while suspended.

The Racing Australia Chairmen of Stewards Committee is of the view that a new rule should be introduced for breaching suspension restrictions while suspended, which is consistent with the rule in respect of disqualified persons. This will add a further deterrent for suspended persons who may be inclined to contravene the conditions of their suspension.

Racing Australia has approved the addition of a new rule as set out below.

### Insert new AR 270A as follows:

#### 'AR 270A Penalty for breach of terms of suspension

(1) Except with the consent of the PRA or the Stewards in whose territory a suspension was imposed, a suspended person must not during the period of the suspension contravene any of the Rules in respect of, or the terms or conditions of, the suspension.

(2) Unless otherwise determined by the PRA or the Stewards in whose territory a suspension was imposed or adopted, if a person breaches subrule (1), the period of suspension imposed on that person must automatically restart from the most recent date of the breach, and the person may also be subject to further penalty.

(3) The provisions of subrules (1) and (2) apply to any suspended person, regardless of when the suspension was imposed."

Date of effect: 1 January 2020

## MEDIA RELEASE AUSTRALIAN RULES OF RACING COBALT RULES CONSIDERED & REAFFIRMED

Racing Australia's Veterinary and Analysts Committee (VAC) recently completed a review of matters raised in relation to Cobalt and provided the Board of Racing Australia with its expert advice on the matter.

The Board also considered that the view among international racing authorities continues to be consistent with Racing Australia that cobalt has the potential to positively affect performance and is a welfare risk at toxic levels and that Rules of Racing are required to protect against this risk.

In light of VAC's advice, the Board of Racing Australia reaffirmed its position in respect of cobalt and advises that it does not propose to make any amendments to the Australian Rules of Racing.

### In summary the VAC report advised the following:

- there remains a view among international racing authorities that cobalt has the potential to positively affect performance and is a welfare risk at toxic levels;
- a typical daily diet of a racehorse meets a horse's cobalt requirement and there have been no reported cases of cobalt deficiency in horses;
- there is no nutritional, medical or welfare justification for the administration of cobalt salts by injection at any time;
- at doses higher than the nutritional requirements for B12 production, cobalt has been demonstrated to stimulate erythropoiesis (red blood cell production) in mammals by a mechanism completely separate and different from that of the production of B12;
- in addition to stimulating erythropoietin (EPO) production, by means of stabilising HIF, cobalt can induce the expression of more than 200 genes – some of the HIF-activated genes encode proteins that may increase physical performance (e.g. energy metabolism); and
- in the period 1 September 2016 (when the revised 100 ug/L threshold was introduced) to September 2019, 42,477 urine tests nationally have produced an average result of 5.1ug/L and only 59 positive samples (0.14%).

## TRAINERS & OWNERS REMINDER

### STABLE RETURNS

Trainers are reminded of their obligations in regards to stable returns.

#### **AR 103 Trainers to Lodge Stable Returns**

- (4) The trainer of a horse must:
- (a) disclose the location of a horse under his or her care upon request by Racing Australia (for retirement purposes only) and/or a PRA;
  - (b) lodge a Stable Return **immediately** upon a horse joining the trainer's stable;
  - (c) lodge an amendment to a Stable Return **immediately** if:
    - (i) any particulars on the Stable Return have changed; or
    - (ii) a horse leaves or joins the trainer's stable, or moves to another of the trainer's premises (where the trainer's stable is comprised of more than one premises), with the amendment to disclose the precise location of the horse.
- (5) For the purposes of subrule (4):
- (a) if a trainer's stable is comprised of more than one premises, the trainer must disclose at which premises the horse is located;
  - (b) when a horse leaves a trainer's stable to spell or otherwise the trainer must disclose the location of the property at which the horse will be located.
- (6) Where a horse has been entered for a race, from the time of entry to arrival on course prior to racing:
- (a) except with the permission of the Stewards, the horse must be stabled only at the premises from which the horse's trainer is licensed to train;
  - (b) if the horse is travelling to participate in the race, the horse's trainer must inform the Stewards of the horse's proposed travel plans prior to the horse's departure from the trainer's stable and/or lodge a Stable Return disclosing the location of the horse (as required by the relevant PRA).
- (7) If a trainer fails to lodge, in whole or in part, a Stable Return or any amendment thereof, or fails to provide details of the location or movements of a horse, in accordance with the provisions of this rule, the entry of the horse for any race, official trial or jump-out may be rejected or cancelled.
- (8) The manager (or his or her authorised agent) of an eligible horse or a named horse must, unless otherwise contained in a Stable Return lodged in accordance with this rule, disclose:
- (a) the location of that horse upon request by Racing Australia and/or a PRA, including as required under any registration, ownership transfer or other form;
  - (b) any change in the previously notified location of that horse, to the satisfaction of a PRA, **immediately**.

When a horse is retiring from racing but remaining in the stable until a suitable home is found a stable return can be entered as :

**"Active Non-stable training".**

### TRANSFER OF OWNERSHIP

Please remember that a transfer of ownership must be lodged and paid for to Racing Australia prior to the horse being nominated. Once the transfer has been processed a stable return must be lodged with the new registered owners.

## NOTICES

It has come to the attention of TRNT Stewards that there have been instances at recent race meetings whereby trainers have been using plastic bottles and assorted types of containers to rinse water through a horse's mouth in the race day stalls prior to racing or applying a tongue tie. From a perception perspective this practise is not permitted and is also a breach of AR251(1) which states:

- (1) A person must not, without the written permission of the Stewards, have in his or her possession:**
- (a) on a racecourse where a race meeting is being conducted; or**
  - (b) in any motor vehicle, horse float or other mode of transport used for the purpose of transporting a horse/s to and/or from a race meeting, any prohibited substance, or a syringe, needle, naso-gastric tube or other instrument that could be used:**
    - (i) to administer a prohibited substance to a horse; or**
    - (ii) to produce a prohibited substance in a horse.**

TRNT Stewards place all NT trainers and visiting trainers on notice that this practice is not permitted and the only approved method to wash out a horse's mouth prior to competing in a race is with the use of running water from a hose.

TRNT Chairman of Stewards, Date of Effect 5th June, 2018

### SUGGESTED PRACTICE WHEN PURCHASING TRIED HORSES FROM INTERSTATE

When buying tried horses from interstate, it is recommended that owners/trainers should ensure that they are fully aware of their purchase's NT rating BEFORE the purchase is finalized:

1. Contact the Integrity Department to request an NT rating for the horse in question. Allow yourself ample time in which to receive a response.
2. The Integrity Department will then make this request of the handicapper on your behalf.
3. The handicapper will respond with an NT rating in writing, which will be passed onto the owner/trainer who has requested it.

PLEASE DO NOT contact the handicapper directly.

4. As a general guide for owners/trainers wishing to purchase a horse from interstate, the handicapper has advised the following:
  - a. When obtaining a horse from Victoria or South Australia, the NT rating will be similar to its current rating (within 2-3 points);
  - b. When obtaining a horse from country Queensland, be aware that the rating in the NT will be slightly lower than the southern State ratings;
  - c. When obtaining a horse from country New South Wales, ignore the rating completely. Country NSW ratings work off a different scale and horses require re-rating when coming to the Territory;
  - d. Metropolitan and Provincial New South Wales ratings will receive similar treatment to those in Victoria and South Australia.
5. This general guide is not intended to be a substitute for the enquiry at 1 above, which is the only satisfactory way of checking a particular horse's NT rating.
6. Thoroughbred Racing NT will not accept any responsibility if incorrect ratings information is obtained from the handicapper whether through this process or by other means.

**Please see page 2 for NT Integrity Department contacts.**

Should a dead heat occur in a TROBIS race, the bonus will be shared equally between such horses.

The TROBIS nominator's payment will be made to the current owner (manager) as per the Australian Register of Racehorses or registered lease document.

Should a nominator (owner or vendor) supply incorrect information on the TROBIS nomination form, the nomination will be null and void and all fees paid will be forfeited.

## BENCHMARK RACES

### AVERAGE BENCHMARK

Average Benchmark Races (ABR) are races where the benchmark level is set after nominations are taken.

#### HOW ABR RACES WORK

- Entries are taken as per normal.
- The average rating of those horses entered is then calculated (see conditions).
- The average rating then becomes the benchmark for that race.
- The Benchmark (rating) for the race is then allocated 58kg's and all other horses are weighted up or down according to the template.

#### Conditions

- To ensure that the Benchmark is not skewed either by a particularly high or low rated horse the top and bottom rated 10% of horses entered, or in cases where there are less than ten entries the highest and lowest rated horses are discounted for the purpose of calculating the average. The remaining horses ratings are then averaged to create the benchmark for that race.
- Any horse which runs in the first three in an ABR and is rated below the 55.0kg minimum will automatically be rerated up to the 55.0kg of that race.
- If the stewards believe that any horse/s may have been nominated in an endeavor to affect the Benchmark in an ABR race they may instruct the handicapper to discount its rating in the calculation of the Benchmark for that race. Stewards will scrutinize the nominations and exclude any horses from the calculation of the average benchmark if they believe that such horse/s sits outside the norm for that race. All horses which are used for the average calculation will be identified on the weights.

Sliding scale for average benchmark races

### Amended Benchmark 54 races — November 1, 2020

54 rated horses to carry the equivalent of 59kg. Each rating point above 54 will incur a penalty of 0.5kg, i.e. a 60 rater (6pts above 54) will receive 62kg. Similarly, each horse's rating below 54 will reduce the weight carried by 0.5kg down to a minimum of 55kg.

Trainers will be permitted to enter horses rated above 54 but no horse with a rating above 60 will be eligible.

# RATINGS - BANDED RACES AND BUSINESS RULES

- All horses intending to run in a Ratings banded race in the Northern Territory must have a rating formalized by the official handicapping panel assigned to the Northern Territory (TRSA Handicapping Panel) prior to nomination closing time.
- Only ratings issued by the TRSA handicapping panel for the Northern Territory will be recognized.
- Horses domiciled in the Northern Territory competing in other states will need to be re-rated on return to the Northern Territory. It cannot be assumed the interstate ratings will be directly correlated to the Northern Territory template rating or other templates.
- Horses will be eligible to nominate for races which have a rating qualification, if at the time of nomination they qualify in the specified Rating Band. Horses eligible at nomination time shall be permitted to compete regardless of any subsequent rating by virtue of re-handicap in that race even if that rating exceeds or drops below the top or bottom rating band in that race.
- Horses shall receive a handicap in a race according to their rating at close of Nomination time in line with the NT RBH template. Provided that any horse racing between the time of close of nominations and declaration of weight time may be re-rated by the handicapper in accordance with performances in this period.
- Fillies and Mares allowed a 2.0kg sex allowance. 2 & 3yo's allowed an allowance the same as the **maiden scale**.
- Set weight maiden scale is as follows:

## August-November

4yo and up geldings and entires - 59.0kg;  
 4yo and up mares - 57.0kg;  
 3yo colts and geldings - 56.5kg;  
 3yo fillies - 54.5kg.

## December-March

4yo and up geldings and entires - 59.0kg;  
 4yo and up mares - 57.0kg;  
 3yo colts and geldings - 57.5kg;  
 3yo fillies - 55.5kg;  
 2yo colts and geldings - 56.5kg;  
 2yo fillies - 54.5kg.

## April-July

4yo and up geldings and entires - 59.0kg;  
 4yo and up mares - 57.0kg;  
 3yo colts and geldings - 58.5kg;  
 3yo fillies - 56.5kg;  
 2yo colts and geldings - 57.5kg;  
 2yo fillies - 55.5kg.

- All races are subject to AR167 and any rules that pertain to minimum and maximum weights, (notwithstanding re handicapped horses, see point 4).
- A horse running in a higher class event, than which they are eligible, may not automatically decrease in rating for an unplaced performance.

10. A horse running in a higher class event than which they are eligible and winning will be rated from the minimum weight, not their pre-race rating.

11. An open class horse will be eligible to run in a 0-58 or BM 54 Rating race. (effective 1.11.20)

12. Should a horse win by six lengths or more, it is liable for an additional rating point over and above the penalty scale guide at 13. (below)

13. The Handicapper will use as a guide the following penalty scale:

FIELD SIZE	1ST	2ND	3RD
6 horses or less	+1.5kg	level	-0.5kg
7 horses or more	+2.0kg	+0.5kg	level

14. Any horse racing at the top of a Ratings Band (0-58, 0-62, 0-64, 0-66, 0-70, 0-76) for which it is eligible and runs a place will not be re-rated to push it out of that Band, however, if a horse is running in a higher Band and runs a place it may be re-rated out of a Band depending on performance. **NB:** Clause 14 does not apply to Benchmark . 54 races.

15. A maiden horse which wins a race in the NT will be rated as follows: a set weights maiden winner – 56; the winner of a 0-64 ratings race and below, or a Class 2 – between 56 and 58; the winner of any other race – at the discretion of the Handicapper. Provided that should any horse have a rating of 56 or above immediately prior to its first race win, the rating for winning such race will be at the discretion of the Handicapper.

16. All maiden horses shall receive an interim rating by the handicapper to allocate a weight and to establish a ballot order.

17. All unraced horses nominated for their first start will receive a rating of 54.

18. Apprentices will be permitted to claim in maiden races.

19. Winning horses will receive a maximum points increase of eight (8) for winning out of their grade – this will only apply to races with total stakemoney less than \$30,000, and will not apply to maidens.

# 3YO BENCHMARKS

As you are aware, the TRNT Board approved a change to the 3yo class 5 and 6 races, and opens, at its most recent meeting held on 3 February 2021. These races will now be Benchmark affairs which will streamline the handicapping process and give trainers far more certainty on the weights to be carried by 3yos going forward.

**The templates will be as follows:**

**NB:** Should no horse reach the Benchmark, the 59.0kg topweight rule will apply.

**The races included in this edition of *Trackside* which will be affected by these changes are as follows:**

## **Originally programmed race**

April 3 (AS) 3yo 1400m open  
 April 17 (AS) 3yo 1600m open  
 April 25 (AS) 3yo Class 6  
 April 30 (AS) 3 and 4yo 1600m  
 May 29 (DWN) 3yo Class 5

 July 3 (DWN) 3yo open 1600m  
 July 10 (DWN) 3yo class 6  
 July 17 (DWN) 3yo open 2050m  
 July 24 (DWN) 3yo open 1200m

## **Proposed new race conditions (changes in red)**

3yo BM68 (Guineas Trial)  
 remain as Open Set Weight (AS Guineas)  
 3yo BM66  
 3 & 4yo BM68  
 3yo BM64  
 3yo BM66  
 remain as Open Set Weights (Dwn Guineas)  
 3yo BM66  
 remain as Open Set Weights (Derby)  
 3yo BM68

**NB:** You will note that the 3 and 4yo handicap 1600m event in AS on April 30 has also been changed – to a 3 and 4yo BM68. This, like the 3yo changes, is a far better scenario than a handicap with no template.

The ballot order for the Guineas (x2) and Derby will now be carried out on a **ratings basis rather than by utilising stakemoney levels** – the only time that stakemoney will be taken into account is when two or more horses have the same rating.

Where stakemoney is taken into account, it will be for horses earning first, second, third, fourth and fifth stakemoney only (as per local rules).

# AMENDED LOCAL RULES

## Local Rule changes required as a consequence of 3yo race alterations

Amended rules are to read as follows:

In the event a ballot is required to eliminate acceptors in order to achieve the field limit prescribed, horses shall be balloted in the following order:

- Horses with the lowest rating shall be eliminated first.

- Any breeders', vendors' or other Bonuses and unplaced runner subsidies will not be taken into account when applying balloting conditions.

For the purpose of this Rule, prizemoney shall not include prizemoney earned in any race in which a horse has not been placed first, second, third, fourth or fifth.

### **NT40 All Set Weight Races including weight-for-age races:**

# ALICE SPRINGS CUP CARNIVAL CONDITIONS 2021

ALICE SPRINGS turf club

## Balloting Conditions PIONEER SPRINT AND ALICE SPRINGS GOLD CUP

## WINNERS EXEMPT FROM BALLOT

The field for each race will be restricted to 12 runners, with provision for up to three emergency runners. Should the number of final acceptors exceed 12, the Committee reserves the right to eliminate surplus horses in the following order:

- \*Horses on the lowest handicap weight will be eliminated first in the order set down by the Handicapper, with the last named horse being the first eliminated, then the next to last, and so on until the safety limit is reached or until all horses on the minimum weight have been eliminated.
- \*Should the number of horses engaged still exceed the safety limit, elimination will be in order of horse/s handicapped above the minimum with the lowest weight and so on.
- \*When two or more horses are handicapped above the minimum, and at the same weight, elimination shall be according to age, oldest first, and in the case of horses weighted above the minimum with the same weight and of the same age, elimination shall be by lot.
- \*If any horse/s wins a race/s after the declaration of weights the Handicapper may promote such horse/s in the elimination order instead of imposing additional weight by way of penalty.
- \*Provided that the Committee may in its absolute discretion eliminate any horse/s from the race and/or exclude any horse/s from the operation of the preceding balloting conditions, irrespective of the handicap weight or age of the horse/s concerned.

## BALLOTING

Balloting will be in accordance with the Local Rules.

## ALL RACES (BONUSES)

In the balloting for all races, unless otherwise provided by the conditions of the race, no account shall be taken of monies won as a bonus (eg. TROBIS, VOBIS, Red Centre Classic, etc.)

The winner of the Open Hcp (1900m) and the 3 Year Old Guineas (1600m) run on Saturday 17th April 2021, and the Chief Minister's Cup (1600m) run on Saturday 25th April 2021, are exempt from the ballot for the Alice Springs Gold Cup run on Sunday 2nd May 2021.

The winner of the Open (1000m) run on Saturday 25th April 2021 will be exempt from the ballot for the Pioneer Sprint run on Sunday 2nd May 2021.

## NT 40: All Set Weight races including Weight-for-age races:

The field for all Set Weight races will appear on the official weight sheet with a rating allotted at the discretion of the Handicapper. After the declaration of weights, the rating may be adjusted for a horse which has won a race(s) between the declaration of weights and the time for final acceptances. In the event a ballot is required to eliminate acceptors in order to achieve the field limit prescribed, horses shall be balloted in the following order:

Horse with the lowest rating shall be eliminated first.

Where two or more horses have the same rating, the older horses shall be eliminated before the younger horse.

Where two or more horses have the same rating and are of the same age, the horse which has earned the least amount of prizemoney on the flat shall be eliminated first.

Where two or more horses have the same rating, are of the same age, and have earned the same amount of prizemoney on the flat, a ballot shall be conducted by lot.

For the purpose of this rule, prizemoney shall not include prizemoney earned in any race in which a horse has not been placed first, second, third, fourth or fifth.
